1. Introduction

Motivate the project–what problem do you plan to solve and how does it relate to HRI research more broadly (one paragraph).

Briefly describe prior work (one paragraph).

Describe research gaps and why they are important (one paragraph).

Describe how your project addresses the stated research gaps and the angle you are taking to solve the problem (one paragraph).

Our work addressed the following **research questions**:

- **RQ1:**
- **RQ2:**

Fig. 1. Add an informative caption. By reading this caption, I should understand the overall goal and unique aspects depicted.

2. Background

A. Research theme 1

B. Research theme 2

3. Robot Control Architecture

4. Evaluation

A. Experimental Design

B. Study Trials

C. Study Task

D. Metrics

5. Results

6. Discussion

7. Future Work & Limitations
